

OPEN-SOURCE COMPUTING TOOLS AND AI BASICS

A WORKSHOP SERIES FOR COMMUNITY ORGANIZATIONS

Session One - Virtual
Tuesday, August 4, 2026
10am - 12pm EST

Eric J. Stokan, PhD

Associate Professor, Political Science
Director, Center for Social Science Scholarship
University of Maryland, Baltimore County (UMBC)

The Center for Social Science Scholarship (CS3) at the University of Maryland, Baltimore County is pleased to host a workshop series focused on helping local community organizations use open-source tools (R programming) and Large Language Models (LLMs) to improve organizational effectiveness.

Please scan the QR code below or visit <https://socialscience.umbc.edu/community-organizations/> to register and learn more about the series. Registration is required.

This series is supported through the Open Research Community Accelerator and the University System of Maryland Wilson H. Elkins Professorship of Academic Transformation.
